

CALIFORNIA CODES
WELFARE AND **INSTITUTIONS CODE**
SECTION **4400**-4435.1

4400. There is in the Health and Welfare Agency a State Department of Developmental Services.

4401. As used in this division:

- (a) "Department" means the State Department of Developmental Services.
- (b) "Director" means the Director of Developmental Services.
- (c) "State hospital" means any hospital specified in Section 4440.

4404. The department is under the control of an executive officer known as the Director of Developmental Services.

4405. With the consent of the Senate, the Governor shall appoint to serve at his pleasure, the Director of Developmental Services. He shall have the powers of a head of a department pursuant to Chapter 2 (commencing with Section 11150) of Part 1 of Division 3 of Title 2 of the Government **Code**, and shall receive the salary provided for by Chapter 6 (commencing with Section 11550) of Part 1 of Division 3 of Title 2 of the Government **Code**.

Upon recommendation of the director, the Governor may appoint a chief deputy director of the department who shall hold office at the pleasure of the Governor. The salary of the chief deputy director shall be fixed in accordance with law.

4406. The State Department of Developmental Services succeeds to and is vested with the duties, purposes, responsibilities, and jurisdiction exercised by the State Department of Health with respect to developmental disabilities on the date immediately prior to the date this section becomes operative.

4407. The State Department of Developmental Services shall have possession and control of all records, papers, offices, equipment, supplies, moneys, funds, appropriations, land, and other property real or personal held for the benefit or use of the Director of Health in the performance of his duties, powers, purposes, responsibilities, and jurisdiction that are vested in the State Department of Developmental Services by Section 4406.

4408. All officers and employees of the Director of Health who on the operative date of this section are serving in the state civil service, other than as temporary employees, and engaged in the performance of a function vested in the State Department of Developmental Services by Section 4406 shall be transferred to the State Department of Developmental Services. The status, positions, and rights of such persons shall not be affected by the transfer and shall be retained by them as officers and employees of the State Department of Developmental Services pursuant to the State Civil Service Act, except as to positions exempt from civil service.

4409. All regulations heretofore adopted by the State Department of Health pursuant to authority now vested in the State Department of Developmental Services by Section 4406 and in effect immediately preceding the operative date of this section shall remain in effect and shall be fully enforceable unless and until readopted, amended or repealed by the Director of Developmental Services.

4410. With the approval of the Department of General Services and for use in the furtherance of the work of the State Department of Developmental Services, the director may accept any or all of the following:

- (a) Grants of interest in real property.
- (b) Grants of money received by this state from the United States, the expenditure of which is administered through or under the direction of any department of this state.
- (c) Gifts of money from public agencies or from persons, organizations, or associations interested in scientific, educational, charitable, or mental hygiene fields.

4411. The department may expend in accordance with law all money now or hereafter made available for its use, or for the administration of any statute administered by the department.

4412. The department may expend money in accordance with law for the actual and necessary travel expenses of officers and employees of the department who are authorized to absent themselves from the State of California on official business.

For the purposes of this section and of Sections 11030 and 11032 of the Government **Code**, the following constitutes, among other purposes, official business for said officers and employees for which such officers and employees shall be allowed actual and necessary traveling expenses when incurred either in or out of this state upon approval of the Governor and Director of Finance:

Attending meetings of any national association or organization having as its principal purpose the study of matters relating to administration of **institutions**, and care and treatment of

developmentally disabled patients; conferring with officers or employees of the United States or other states, relative to problems of institutional care, treatment or management; and obtaining information therefrom, which information would be useful in the conduct of institutional, psychiatric, medical, and similar activities of the State Department of Developmental Services.

4413. The department may appoint and fix the compensation of such employees as it deems necessary, subject to the laws governing civil service.

4414. When convening any task force or advisory group, the department shall make its best effort to ensure representation by consumers and family members representing California's multicultural diversity.

4415. Except as in this chapter otherwise prescribed, the provisions of the Government **Code** relating to state officers and departments shall apply to the State Department of Developmental Services.

4416. Unless otherwise indicated in this **code**, the State Department of Developmental Services has jurisdiction over the execution of the laws relating to the care, custody, and treatment of developmentally disabled persons, as provided in this **code**.

As used in this division, "establishment" and "**institutions**" include every hospital, sanitarium, boarding home, or other place receiving or caring for developmentally disabled persons.

4416.5. The State Department of Developmental Services may contract with one or more qualified organizations to provide the services required by Section 1919 of the Social Security Act (P.L. 100-203) to persons eligible for those services who are not otherwise within the scope of Division 4.1 (commencing with Section **4400**), Division 4.5 (commencing with Section 4500), Division 6 (commencing with Section 6000), or Chapter 3 (commencing with Section 7500) of Division 7. Contracts entered into pursuant to this section may be awarded on either a competitive bidding basis or on a noncompetitive bidding basis.

4417. The State Department of Developmental Services may:

(a) Disseminate educational information relating to the prevention, diagnosis and treatment of mental retardation.

(b) Upon request, advise all public officers, organizations and agencies interested in the developmental disabilities of the people of the state.

(c) Conduct such educational and related work as will tend to encourage the development of proper developmental disabilities

facilities throughout the state.

The department may organize, establish and maintain community mental hygiene clinics for the prevention, early diagnosis and treatment of mental retardation. Such clinics may be maintained only for persons not requiring institutional care, who voluntarily seek the aid of such clinics. Such clinics may be maintained at the locations in the communities of the state designated by the director, or at any institution under the jurisdiction of the department designated by the director.

The department may establish such rules and regulations as are necessary to carry out the provisions of this section. This section does not authorize any form of compulsory medical or physical examination, treatment, or control of any person.

4418. The State Department of Developmental Services may obtain psychiatric, medical and other necessary aftercare services for judicially committed patients on leave of absence from state hospitals by contracting with any city, county, local health district, or other public officer or agency, or with any private person or agency to furnish such services to patients in or near the home community of the patient. Any city, county, local health district, or other public officer or agency authorized by law to provide mental health and aftercare services is authorized to enter such contracts.

4418.2. The department shall support, utilizing regional resource development projects, the activities specified in Sections 4418.25, 4418.3, and 4418.7.

4418.25. (a) The department shall establish policies and procedures for the development of an annual community placement plan by regional centers. The community placement plan shall be based upon an individual program plan process as referred to in subdivision (a) of Section 4418.3 and shall be linked to the development of the annual state budget. The department's policies shall address statewide priorities, plan requirements, and the statutory roles of regional centers, developmental centers, and regional resource development projects in the process of assessing consumers for community living and in the development of community resources.

(b) The community placement plan shall provide for dedicated funding for comprehensive assessments of selected developmental center residents, for identified costs of moving selected individuals from developmental centers to the community, and for deflection of selected individuals from developmental center admission. The plans shall, where appropriate, include budget requests for regional center operations, assessments, resource development, and ongoing placement costs. These budget requests are intended to provide supplemental funding to regional centers. The plan is not intended to limit the department's or regional centers' responsibility to otherwise conduct assessments and individualized program planning, and to provide needed services and supports in the least restrictive, most integrated setting in accord with the Lanterman Developmental

Disabilities Services Act (Division 4.5 (commencing with Section 4500)).

(c) The department shall review, negotiate, and approve regional center community placement plans for feasibility and reasonableness, including recognition of each regional centers' current developmental center population and their corresponding placement level, as well as each regional centers' need to develop new and innovative service models. The department shall hold regional centers accountable for the development and implementation of their approved plans. The regional centers shall report, as required by the department, on the outcomes of their plans. The department shall make aggregate performance data for each regional center available, upon request, as well as data on admissions to, and placements from, each developmental center.

(d) Funds allocated by the department to a regional center for a community placement plan developed under this section shall be controlled through the regional center contract to ensure that the funds are expended for the purposes allocated. Funds allocated for community placement plans that are not used for that purpose may be transferred to Item 4300-003-0001 for expenditure in the state developmental centers if their population exceeds the budgeted level. Any unspent funds shall revert to the General Fund.

4418.3. (a) It is the intent of the Legislature to ensure that the transition process from a developmental center to a community living arrangement is based upon the individual's needs, developed through the individual program plan process, and ensures that needed services and supports will be in place at the time the individual moves. It is further the intent of the Legislature that regional centers, developmental centers, and regional resource development projects coordinate with each other for the benefit of their activities in assessment, in the development of individual program plans, and in planning, transition, and deflection, and for the benefit of consumers.

(b) As individuals are identified for possible movement to the community, an individual planning meeting shall be initiated by the developmental center, which shall notify the planning team, pursuant to subdivision (j) of Section 4512, and the regional resource development project of the meeting. The regional resource development project shall make services available to the developmental center and the regional center, including, but not limited to, consultations with the planning teams and the identification of services and supports necessary for the consumer to succeed in community living.

(c) The development of the individual program plan shall be consistent with Sections 4646 and 4646.5. For the purpose of this section, the planning team shall include developmental center staff knowledgeable about the service and support needs of the consumer.

(d) Regional resource development project services may include providing information in an understandable form to consumers and, where appropriate, their families, conservators, legal guardians, or authorized representatives, that will assist them in making decisions about community living and services and supports. This information may include affording the consumer the opportunity to visit a variety of community living arrangements that could meet his or her needs. If the visits are not feasible, as determined by the planning team, a

family member or other representative of the consumer may conduct the visits. Regional resource development projects may be requested to facilitate these visits. The availability of this service shall be made known by the planning team to consumers and, where appropriate, their families, conservators, legal guardians, or authorized representative.

(e) Once the individual program plan is completed and providers of services and supports are identified and agreed to, pursuant to subdivision (b) of Section 4646.5, and no less than 15 days prior to the move, unless otherwise ordered by a court, a transition conference, which may be facilitated by a regional resource development project, shall be held. Participants in the transition conference shall include, but not be limited to, the consumer, where appropriate the consumer's parents, legal guardian, conservator, or authorized representative, a regional center representative, a developmental center representative, and a representative of each provider of primary services and supports identified in the individual program plan. This meeting may take place in the catchment area to which the consumer is moving. If necessary, conferees may participate by telephone or video conference. The purpose of this conference shall be to ensure a smooth transition from the developmental center to the community.

(f) The department, through the appropriate regional resource development project, shall provide, in cooperation with regional centers and developmental centers, followup services to help ensure a smooth transition to the community. Followup services shall include, but shall not be limited to, all of the following:

(1) Regularly scheduled as well as on an as-needed basis, contacts and visits with consumers and service providers during the 12 months following the consumers movement date.

(2) Participation in the development of an individual program plan in accordance with Sections 4646 and 4646.5.

(3) Identification of issues that need resolution.

(4) Arrangement for the provision of developmental center services, including, but not limited to, medication review, crisis services, and behavioral consultation.

(g) To ascertain that the individual program plan is being implemented, that planned services are being provided, and that the consumer and, where appropriate the consumer's parents, legal guardian, or conservator, are satisfied with the community living arrangement, the regional center shall schedule face-to-face reviews no less than once every 30 days for the first 90 days. Following the first 90 days, and following notification to the department, the regional center may conduct these reviews less often as specified in the individual program plan.

(h) The regional center and the regional resource development project shall coordinate their followup reviews required pursuant to subdivisions (f) and (g) and shall share with each other information obtained during the course of the followup visits.

4418.5. The department may provide protective social services for the care of developmentally disabled patients released from state hospitals of the department or to prevent the unnecessary admission of developmentally disabled persons to hospitals at public expense or to facilitate the release of developmentally disabled patients for

whom such hospital care is no longer the appropriate treatment; provided that such services may be rendered only if provision for such services is made in the California Developmental Disabilities State Plan.

The department, to the extent funds are appropriated and available, shall pay for the cost of providing for care in a private home for developmentally disabled persons described in, and subject to the request and plan conditions of, the immediately preceding paragraph. The monthly rate for such private home care shall be set by the department at an amount which will provide the best possible care at minimum cost and also insure:

(1) That the person will receive proper treatment and may be expected to show progress in achieving the maximum adjustment toward returning to community life; and

(2) That sufficient homes can be recruited to achieve the stated objectives of this section.

It is the legislative intent that the department may make the fullest possible use of available resources in serving developmentally disabled persons.

The department may provide services pursuant to this section directly or through contract with public or private entities.

Notwithstanding any other provision of law, any contract or grant entered into with a public or private nonprofit corporation for the provision of services to developmentally disabled persons may provide for periodic advance payments for services to be performed under such contract. No advanced payment made pursuant to this section shall exceed 25 percent of the total annual contract amount.

The department may provide protective social services, including the cost of care in a private home pursuant to this section or in a suitable facility as specified in Section 7354, for judicially committed developmentally disabled patients released from a state hospital on leave of absence or parole, and payments therefor shall be made from funds available to the department for that purpose or for the support of patients in state hospitals.

4418.6. The department may establish within its family care program respite care services for the developmentally disabled. Such respite care services may be available to both family home caretakers and to persons referred by the regional centers for the developmentally disabled. For purposes of this section, respite care means temporary and intermittent care provided for short periods of time.

The rate of reimbursement for such respite care service shall be established by the department after it conducts a study to determine if there are increased costs inherent in the provision of an intermittent and irregular service.

4418.7. (a) If the regional center determines, or is informed by the consumer's parents, legal guardian, conservator, or authorized representative that the community placement of a consumer is at risk of failing, and that admittance to a state developmental center is a likelihood, the regional center shall immediately notify the appropriate regional resource development project, the consumer, and the consumer's parents, legal guardian, or conservator.

(b) In these cases, the regional resource development project

shall immediately arrange for an assessment of the situation, including, visiting the consumer, if appropriate, determining barriers to successful integration, and recommending the most appropriate means necessary to assist the consumer to remain in the community. If, based on the assessment, the regional resource development project determines that additional or different services and supports are necessary, the department shall ensure that the regional center provides those services and supports on an emergency basis. An individual program plan meeting, including the regional resource development project's representative, shall be convened as soon as possible to review the emergency services and supports and determine the consumer's ongoing needs for services and supports. The regional resource development project shall follow up with the regional center as to the success of the recommended interventions until the consumer's living arrangement is stable.

(c) If the regional resource development project, in consultation with the regional center, the consumer, and the consumer's parents, legal guardian, or conservator, when appropriate, determines that admittance to a state developmental center is necessary to prevent a substantial risk to the individual's health and safety, the regional resource development project shall immediately facilitate that admission.

(d) The department shall collect data on the outcomes of efforts to assist at-risk consumers to remain in the community. The department shall make aggregate data on the implementation of the requirements of this section available, upon request.

4419. Within the limits of available funds it is the intent of the Legislature that the department shall require all personnel working directly with patients to complete, within a reasonable time after the effective date of this section or after their appointments, whichever is later, or have completed, training with regard to the care and treatment of such patients.

4420. In order to assure an adequate number of qualified psychiatric technicians, psychiatrists, physicians and surgeons, psychologists, nurses, social workers, laboratory and other technicians, and ancillary workers, the department shall negotiate with any or all of the following: the University of California, the state colleges, the community colleges, private universities and colleges, and public and private hospitals, and arrange such affiliations or make such contracts for educational or training programs and awards training grants or stipends as may be necessary. Arrangements may be made in the hospitals and clinics operated by the department for the clinical experience essential to such educational and training programs, and positions in the department as interns and residents may be established.

4421. In order to assure an adequate number of qualified psychiatrists and psychologists with forensic skills, the State Department of Developmental Services shall plan with the University

of California, private universities, and the California Postsecondary Education Commission, for the development of programs for the training of psychiatrists and psychologists with forensic skills.

4422. The department may examine all public and private hospitals, boarding homes or other establishments whether or not licensed by the department, receiving or caring for developmentally disabled persons and may inquire into their methods of government, and the treatment of all patients thereof.

It may examine the condition of all buildings, grounds, or other property connected with such **institutions**, and may inquire into all matters relating to their management. For the purposes specified in this paragraph the department shall have free access to the grounds, buildings, and books and papers of any such institution, and every person connected therewith shall give such information and afford such facilities for examination or inquiry as the department requires.

Any evidence found of suspected licensing violations shall be reported immediately to the State Department of Health Services or the State Department of Social Services, whichever has jurisdiction.

4423. In every place in which a developmentally disabled person may be involuntarily held, the persons confined therein shall be permitted access to and examination or inspection of copies of this **code**.

4424. The department shall adopt, for all hospitals, rules and regulations, books of record for all departments, blank forms for clinical records and other purposes, questions for examination of employees, and questions for examination, in all the different branches of medicine and surgery and especially in the subject of diseases affecting the brain and nervous system, of all officers and interns, for the special use of the hospital.

4425. The department shall keep in its office a record showing the following facts concerning each patient in custody in the several **institutions**:

(a) Name, residence, sex, age, place of birth, occupation, and civil condition.

(b) The date of commitment, and the respective names and residences of

(1) The person who made the petition for commitment,

(2) The persons who signed the medical certificate, and

(3) The judge who made the order of commitment.

(c) The name of the institution in which he is confined, the date of his admission thereto, and whether he was brought from his home or from another institution. If he was brought from another institution, the record shall show also the name of that institution, by whom he was brought therefrom and his condition.

(d) If discharged, the date of discharge, to whose care he was committed, and whether recovered, improved, unimproved, or not in need of commitment.

(e) If transferred, for what cause the transfer was made, and to what institution.

(f) If dead, the date and cause of death.

4426. The department may inquire into the manner in which any mentally retarded person subject to commitment, not confined in a state hospital, is cared for and maintained. If, in its judgment, any such person is not properly and suitably cared for, it may apply to a judge of the superior court for an order to commit him to a state hospital under the provisions of this **code**. Such order shall not be made unless the judge finds, and certifies in the order, that such person is not properly or suitably cared for by his relatives or guardian or conservator, or that it is dangerous to the public to allow him to be cared for and maintained by such relatives or guardian or conservator.

4427. When the department has reason to believe that any person held in custody as developmentally disabled is wrongfully deprived of his liberty, or is cruelly or negligently treated, or that inadequate provision is made for the skillful medical care, proper supervision, and safekeeping of any such person, it may ascertain the facts. It may issue compulsory process for the attendance of witnesses and the production of papers, and may exercise the powers conferred upon a referee in a superior court. It may make such orders for the care and treatment of such person as it deems proper.

Whenever the department undertakes an investigation into the general management and administration of any establishment or place of detention for the developmentally disabled, it may give notice of such investigation to the Attorney General, who shall appear personally or by deputy, to examine witnesses in attendance and to assist the department in the exercise of the powers conferred upon it in this **code**.

The department may at any time cause the patients of any county or city almshouse to be visited and examined, in order to ascertain if developmentally disabled persons are kept therein.

4427.5. (a) (1) A developmental center shall immediately report all resident deaths and serious injuries of unknown origin to the appropriate local law enforcement agency, which may, at its discretion, conduct an independent investigation.

(2) The reporting requirements of this subdivision are in addition to, and do not substitute for, the reporting requirements of mandated reporters.

(b) The department shall do both of the following:

(1) Annually provide written information to every developmental center employee regarding all of the following:

(A) The statutory and departmental requirements for mandatory reporting of suspected or known abuse.

(B) The rights and protections afforded to individuals' reporting of suspected or known abuse.

(C) The penalties for failure to report suspected or known abuse.

(D) The telephone numbers for reporting suspected or known abuse or neglect to designated investigators of the department and to local law enforcement agencies.

(2) On or before August 1, 2001, in consultation with employee organizations, advocates, consumers, and family members, develop a poster that encourages staff, residents, and visitors to report suspected or known abuse and provides information on how to make these reports.

4428. When complaint is made to the department regarding the officers or management of any hospital or institution for the developmentally disabled, or regarding the management of any person detained therein or regarding any person held in custody, the department may, before making an examination regarding such complaint, require it to be made in writing and sworn to before an officer authorized to administer oaths. On receipt of such a complaint, sworn to if so required, the department shall direct that a copy of the complaint be served on the authorities of the hospital or institution or the person against whom complaint is made, together with notice of the time and place of the investigation, as the department directs.

4429. The department shall biennially report to the Legislature its acts and proceedings for the two years ending the June 30th last preceding, with such facts regarding the management of the institution for the developmentally disabled as it deems necessary for the information of the Legislature, including estimates of the amounts required for the use of such hospitals and the reasons therefor, and including annual reports for each state hospital.

4430. The department shall report to the Legislature the prospective needs for the care, custody, and treatment of developmentally disabled persons, together with its recommendations therefor. For the purpose of preventing overcrowding, it shall recommend such plans for the development of additional medical facilities as, in its judgment, will best meet the requirements of such persons.

4431. Charges made by the department for the care and treatment of each patient in a facility maintained by the department shall not exceed the actual cost thereof as determined by the director in accordance with standard accounting practices. The director is not prohibited from including the amount of expenditures for capital outlay or the interest thereon, or both, in his determination of actual cost.

As used in this section, the terms "care" and "care and treatment" include care, treatment, support, maintenance, and other services rendered by the department to a patient in the state hospital or

other facility maintained by or under the jurisdiction of the department.

4432. (a) The State Department of Developmental Services shall report proposed allocations for level-of-care staffing in state hospitals that serve persons with developmental disabilities that shall include the following:

(1) All assumptions underlying estimates of state hospital developmentally disabled population.

(2) A comparison of the actual and estimated population levels for the year to date. If the actual populations differ from the estimated population by 50 or more, the department shall include in its reports a description of the change and the fiscal impact. The department shall make this information available to the Legislature during the budget process, but no later than January 10 of each year and no later than the release of the May revision of the Governor's proposed budget each year.

(b) The department shall provide the information required by subdivision (a) on the same dates as specified in subdivision (a) to the State Council on Developmental Disabilities created by Section 4520. The State Council on Developmental Disabilities shall provide the Legislature with review and comment on the information in a report.

4433. (a) The Legislature finds and declares all of the following:

(1) The State of California accepts its responsibility to ensure and uphold the rights of persons with developmental disabilities and an obligation to ensure that laws, regulations, and policies on the rights of persons with developmental disabilities are observed and protected.

(2) Persons with developmental disabilities are vulnerable to abuse, neglect, and deprivations of their rights.

(3) Clients' rights advocacy services provided by the regional centers, the advocacy services currently provided by the department at the state hospitals, and the services provided by the department's Office of Human Rights may have conflicts of interest, or the appearance of a conflict of interest.

(4) The services provided to individuals with developmental disabilities and their families are of such a special and unique nature that they cannot satisfactorily be provided by state agencies or regional centers and must be contracted out pursuant to paragraph (3) of subdivision (b) of Section 19130 of the Government **Code**.

(b) (1) To avoid the potential for a conflict of interest or the appearance of a conflict of interest, beginning January 1, 1998, the department shall contract for clients' rights advocacy services. The department shall solicit a single statewide contract with a nonprofit agency that results in at least three responsive bids that meet all of the criteria specified in paragraph (2) to perform the services specified in subdivision (d). If three responsive bids are not received, the department may rebid the contract on a regional basis, not to exceed three regional contracts and one contract for developmental centers and headquarters.

(2) Any contractor selected shall meet the following requirements:

(A) The contractor can demonstrate the capability to provide statewide advocacy services to individuals with developmental

disabilities living in developmental centers and in the community.

(B) The contractor does not directly or indirectly provide services to individuals with developmental disabilities, except advocacy services.

(C) The contractor has knowledge of the service system, entitlements, and service rights of persons receiving services from regional centers and in state hospitals.

(D) The contractor can demonstrate the capability of coordinating services with the protection and advocacy agency specified in Division 4.7 (commencing with Section 4900) and the area boards.

(E) The contractor has not provided any services, except advocacy services, to, or been employed by, any regional center or the Association of Regional Center Agencies during the two-year period prior to the effective date of the contract.

(c) For the purposes of this section, the Legislature further finds and declares that because of a potential conflict of interest or the appearance of a conflict of interest, the goals and purposes of the regional center clients' rights advocacy services, the state hospitals, and the services of the Office of Human Rights, cannot be accomplished through the utilization of persons selected pursuant to the regular civil service system, nor can the services be provided through the department's contracts with regional centers.

Accordingly, contracts into which the department enters pursuant to this section are permitted and authorized by paragraphs (3) and (5) of subdivision (b) of Section 19130 of the Government **Code**.

(d) The contractor shall do all of the following:

(1) Provide clients' rights advocacy services to persons with developmental disabilities who are consumers of regional centers and to individuals who reside in the state developmental centers and hospitals, including ensuring the rights of persons with developmental disabilities, and assisting persons with developmental disabilities in pursuing administrative and legal remedies.

(2) Investigate and take action as appropriate and necessary to resolve complaints from, or concerning persons with, developmental disabilities residing in licensed health and community care facilities regarding abuse, and unreasonable denial, or punitive withholding, of rights guaranteed under this division.

(3) Provide consultation, technical assistance, supervision and training, and support services for clients' rights advocates that were previously the responsibility of the Office of Human Rights.

(4) Coordinate the provision of clients' rights advocacy services in consultation with the department, stakeholder organizations, and persons with developmental disabilities and their families representing California's multicultural diversity.

(5) Provide at least two self-advocacy trainings for consumers and family members.

(e) In order to ensure that individuals with developmental disabilities have access to high quality advocacy services, the contractor shall establish a grievance procedure and shall advise persons receiving services under the contract of the availability of other advocacy services, including the services provided by the protection and advocacy agency specified in Division 4.7 (commencing with Section 4900) and the area boards.

(f) The department shall contract on a multiyear basis for a contract term of up to five years, subject to the annual appropriation of funds by the Legislature.

(g) This section shall not prohibit the department and the

regional centers from advocating for the rights, including the right to generic services, of persons with developmental disabilities.

4433.5. Notwithstanding Section 4433, the department may contract with the State Council on Developmental Disabilities for the purpose of utilizing area boards to provide clients' rights advocacy services to individuals with developmental disabilities who reside in developmental centers and state hospitals. It is the intent of the Legislature that area boards maintain local discretion in the provision of these advocacy services. The state council shall not direct the advocacy services provided by area boards pursuant to this contract, except when necessary to ensure compliance with the contracts.

4434. (a) Notwithstanding preexisting rights to enforce the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500)), it is the intent of the Legislature that the department ensure that the regional centers operate in compliance with federal and state law and regulation and provide services and supports to consumers in compliance with the principles and specifics of this division.

(b) The department shall take all necessary actions to support regional centers to successfully achieve compliance with this section and provide high quality services and supports to consumers and their families.

(c) The contract between the department and individual regional centers required by Chapter 5 (commencing with Section 4620) of Division 4.5 shall include a provision requiring each regional center to render services in accordance with applicable provisions of state laws and regulations. In the event that the department finds a regional center has violated this requirement, or whenever it appears that any regional center has engaged in or is about to engage in any act or practice constituting a violation of any provision of Division 4.5 (commencing with Section 4500) or any regulation adopted thereunder, the department shall promptly take the appropriate steps necessary to ensure compliance with the law, including actions authorized under Section 4632 or 4635. The department, as the director deems appropriate, may pursue other legal or equitable remedies for enforcement of the obligations of regional centers including, but not limited to, seeking specific performance of the contract between the department and the regional center or otherwise act to enforce compliance with Division 4.5 (commencing with Section 4500) or any regulation adopted thereunder.

(d) As part of its responsibility to monitor regional centers, the department shall collect and review printed materials issued by the regional centers, including, but not limited to, purchase of service policies and other policies and guidelines utilized by regional centers when determining the services needs of a consumer, instructions and training materials for regional center staff, board meeting agendas and minutes, and general policy and notifications provided to all providers and consumers and families. Within a reasonable period of time, the department shall review new or amended purchase-of-service policies prior to implementation by the regional center to ensure compliance with statute and regulation. The

department shall take appropriate and necessary steps to prevent regional centers from utilizing a policy or guideline that violates any provision of Division 4.5 (commencing with Section 4500) or any regulation adopted thereunder.

4435. (a) The department shall establish a prevention program for at-risk babies. For purposes of this section, "at-risk baby" means a child under 36 months of age who is otherwise not eligible for the California Early Intervention Program pursuant to Title 14 (commencing with Section 95000) of the Government **Code** or services provided under the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500)) and whose genetic, medical, developmental, or environmental history is predictive of a substantially greater risk for developmental disability than that for the general population, the presence of which is diagnosed by qualified clinicians.

(b) This program shall provide intake, assessment, case management, and referral to generic agencies. For purposes of this section, "generic agency" means any agency that has a legal responsibility to serve the general public and that is receiving public funds for providing these services.

(c) The department shall allocate to each regional center, subject to appropriation, specific funding for this program. A regional center's total expenditures for purchasing or providing services under the prevention program shall not exceed the funding allocated in its contract for this purpose.

(d) Babies identified as being at-risk who are in the prevention program as of June 30, 2011, shall continue in the prevention program until the child reaches 36 months of age, the regional center has determined the child is eligible for services under the California Early Intervention Program pursuant to Title 14 (commencing with Section 95000) of the Government **Code** or the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500)), or June 30, 2012, whichever date is earlier.

(e) Effective July 1, 2011, a regional center shall not refer any at-risk babies to the prevention program described in this section.

(f) This section shall become inoperative on July 1, 2012, and, as of January 1, 2013, is repealed, unless a later enacted statute, that becomes operative on or before January 1, 2013, deletes or extends the dates on which it becomes inoperative and is repealed.

4435.1. (a) Effective July 1, 2011, the department shall establish a program for at-risk babies. For purposes of this section, "at-risk baby" means a child under 36 months of age who is otherwise not eligible for the California Early Intervention Program pursuant to Title 14 (commencing with Section 95000) of the Government **Code** or services provided under the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500)) and whose genetic, medical, developmental, or environmental history is predictive of a substantially greater risk for developmental disability than that for the general population, the presence of which is diagnosed by qualified clinicians.

(b) Effective July 1, 2011, when a regional center intake and

assessment determination is that a baby is an at-risk baby as defined in subdivision (a), the regional center shall, with parental consent, refer the baby and family to the family resource center set forth in subdivision (c) for outreach, information, and referral services.

(c) Effective July 1, 2011, the department shall contract with an organization representing one or more family resource centers which receive federal funds from Subchapter III of the Individuals with Disabilities Education Act (20 U.S.C. Sec. 1431, et seq.) to provide outreach, information, and referral services to generic agencies for children under 36 months of age who are otherwise not eligible for the California Early Intervention Program pursuant to Title 14 (commencing with Section 95000) of the Government **Code** or services provided under the Lanterman Developmental Disabilities Services Act (Division 4.5 (commencing with Section 4500)). The organization with which the department contracts shall be an organization that supports families of young children with intellectual or developmental disabilities, and those at risk of intellectual or developmental disabilities by ensuring the continuance, expansion, promotion, and quality of local family support services, including coordination, outreach, and referral. Any contracts entered into pursuant to this section shall be exempt from state contracting and procurement requirements set forth in the Government and Public Contract Codes and shall take effect immediately to protect the health and safety of the children receiving the services.

(d) The contract described in subdivision (c) shall do both of the following:

(1) Ensure the expeditious delivery of outreach, information, and referral services to at-risk babies.

(2) Require the organization to establish a process with the applicable regional center or centers for referral of the at-risk baby to the regional center when the family resource center suspects that the child may be eligible for services pursuant to the California Early Intervention Program or the Lanterman Developmental Disabilities Services Act.
